Answer these questions from their viewpoint, not ours.)
CHURCH HISTORY

Objectives: Be able to give the dates of the beginning of the Restoration movement, tell who the early leaders were and describe the differences between the Reformation and Restoration Movements, and the part each of the men played in getting the movement going.

Assignments:

1. Martin Luther and Ulrich Zwingli lived at the same time and were considered leaders in the Reformation Movement, yet they did not know each other for a long time after they had begun their work. How is it they could both be involved in this movement, going along the same direction--against the Catholic church--yet not be reading or following each other's ideas? Which of the two men probably most nearly reached the principles of Authority laid down in the Bible? (Is there a similarity between these two men and the later leaders of the Restoration Movement, as far as not knowing each other, yet agreeing in principle with each other?)

2. What were the conditions by the end of the 18th Century as far as the religious world was concerned, especially as far as the Reformation Movement was concerned? Was the Reformation Movement a success? Why were things right for a Restoration Movement?

3. What were the principles of the Restoration Movement that all of the leaders had in common, and that ultimately brought them in contact with each other?

4. What part did James O'Kelly, Dr. Abner Jones and Barton W. Stone play in the Restoration Movement? Give a brief report on each man and his contribution to the Movement. (3 People)
CHURCH HISTORY

Lesson 12: Concluding the Restoration Movement. The rise and fall of the work of the Campbells. The introduction of man-made doctrines. A look at such institutions as the missionary society, sponsoring organizations and centralized church control, as well as other digressive activities.

Objectives: Determine how close the Restoration Movement came to being successful and where it ran into trouble. Be able to show how uninspired men can have a spiritual goal, yet fail when they leave God's will out of their activities. Show the symptoms of digression and be prepared to defend the practice of singing without an instrument and supporting evangelists directly from the church treasury, without going through some other church or institution.

Assignments:

1. What part did Thomas and Alexander Campbell play in the Restoration Movement? Are they the founders of the "Church of Christ"? Where did the expression, "Campbellite" come from, most likely?

2. In October, 1849, a convention was held in Cincinnati, from which came the American Christian Missionary Society. This began the downfall of the success of the Restoration Movement, and further splits came. Compare this action with the early councils/synods, and the results. One led to peace, one led to division. Why? What is the New Testament pattern for supporting evangelistic work? (Give scriptures.)

3. In the late 1850's the melodion was introduced into a congregation in Midway, Kentucky by Dr. L. L. Pinkerton. Again a split occurred among those interested in restoring New Testament religion. What was wrong with this form of worship? How can we explain the fact that virtually every religious organization today uses an instrument of some kind in their worship? (Give scriptures to support your answer.)

4. What are some of the other non-authorized practices that have been introduced since the end of the Restoration Movement? Was the Restoration Movement a success? Do we need another one today?
CHURCH HISTORY

LESSON 13: Lessons from church history: What can we learn from the mistakes of others as we study church history? A look at the symptoms of falling away, the need for restoring New Testament doctrines, ways of determining trends in the church.

Objectives: Be able to give the symptoms of digression, telling examples of how it was possible for the church to drift into error without realizing it at the time. Be able to show how we today justify error, or trend toward error, and not think about it as error. Be able to state ways of preventing digression from enveloping the church.

Assignments:

1. The early church, even in the New Testament days, began to leave the doctrines of God and "establish their own righteousness". We can think of the results as merely symptoms of the falling away. We need to look for signs, and they are present in every generation, that tell us the church is faced with possibility of falling away. What are some of the signs within the church that have shown up in the last 25 years? Even in the "sound" churches there are signs... what are some of them? What do these signs represent?

2. Conditions for falling away: What were the conditions that existed when the church found itself falling away? List as many parallels as possible that compare the times, conditions, thinking and spiritual values of the early days with the same today.

3. What happens when someone decides that the church is in error and makes an effort to change the course of the church, even a local congregation? What would happen if somebody in this congregation challenged something we were doing and showed where we were in error? (Think carefully!)

4. Without being a prophet, we can't tell where the errors will come, but if we had to speculate, where is the next falling away going to occur, as far as doctrine is concerned? What are/will be the symptoms?
